

PAST EXPERIENCE (Corporation and Corporate Officers)

Priax Corporation has significant experience in several areas of communications & security engineering design and development. For this reason, the past experience is divided in the following categories: Electronic Product Design & Development, Chemical Product Design & Development, Integrated Systems Design & Consulting, Integrated Systems Design & Installation, Grant Preparation, Technical Documentation and Sandy Creek Test Center.

Electronic Product Design & Development:

- Solid State harsh environment intercom system (drive-thru)
- Microprocessor-based auto detection system
- Environmental noise adjusted intercommunications system
- Secur-Net courtroom security system
- Correctional institution locking control system
- Mobile Map Plus radio-graphic display system
- Large format graphic display system
- Roving alarm notification system (RANS)
- RANS-Video (under development)
- RANS-Ultima (under development)

Chemical Product and System Design & Development:

- Water restraint system (WRS)
- X-10 cell extraction/barricade removal device
- PepperJet
- X-10SW hand-held sprayer
- X-Stream
- Shipboard WRS
- Area denial system
- OC Smoke (under development)
- Paladin active deterrent barrier (under development)

Integrated Systems Design & Consulting:

- George Bailey Detention Center, San Diego
Physical and perimeter and security design and specifications
- Las Colinas Detention Center, Santee, CA
Chemical Product and System Design and Development

- California Institution for Men, Chino, CA
Perimeter security evaluation and recommendations
California Rehabilitation Center
Perimeter security evaluation and recommendations
- O'Hare International Airport, Chicago, IL
Perimeter security radio communications
- California Department of Corrections and Rehabilitation
Electrified fence graphics and radio communications
Water restraint system custom design for unique installation
- Federal Bureau of Prisons
Perimeter security communications systems
- Kirkland Air Force Base, Albuquerque, NM
Homeland Security radiation detection system
Video and radio communications system
- Port of Oakland, CA
Waterside security and communications design

Integrated Systems Design & Installation (as integrating contractor):

- South Bay Regional Center, Chula Vista, CA
Life safety, video surveillance and related security systems
- San Diego International Airport, San Diego, CA
Public address and broadcast systems
- East County Performing Arts Center, El Cajon, CA
Sound reinforcement system

- Moscone Convention Center, San Francisco, CA
Emergency reporting and control/announcement system
Sound reinforcement system
- Oakland Convention Center
Sound reinforcement system
- Civic Center of Greater Des Moines, IA
Performance theatre sound reinforcement system
- Toronto, Convention Center, Toronto, Canada
Sound reinforcement system
- Salt Palace Convention Center, Salt Lake City, UT
Sound reinforcement system (portion)
- Council Chambers/Board Rooms, San Diego, CA
Automatic sound reinforcement systems in the San Diego area
Various locations
- Newsletter Development and Management
Company newsletter development and mailing management for various companies
- General Services Administration (GSA)
Proposal Preparation
Preparation of sales proposal for GSA sales

Sandy Creek Test Center (Part of Priax Corporation) Typical testing programs (current or on-going test programs)

- Water restraint system
- RANS-Ultima encoder and UHF radio system
- RANS-Ultima receiver
- RANS-Video system (wide-band radio S-band communication system)
- Area Denial System
- X-Stream Pepper Spray backpack
- Paladin active barrier system (Pepper Fence)
- VWT encryption system (TCP/IP)

Grant Preparation

- Magnet Schools Assistance Grants, San Diego City Schools
- NSF Networking Infrastructure Grant, Morse High School, San Diego
- Bilingual Education Grant, San Diego City Schools
- DOJ Less Lethal Technologies Grant (Pending)

Technical Documentation

- Technical manuals for fence alarm system company
Installation, operation and troubleshooting manuals
- Technical manuals for perimeter microwave alarm system
Installation, operation and troubleshooting manuals
- Technical manuals for all Empact Series radio communications systems
Brochures, sales literature, installation instructions and technical support manuals
- Technical manuals for all Hydro-Force Series non-lethal chemical systems
Brochures, sales literature, installation instructions and technical support manuals
